

J. Stevens salon reopened on Monday, May 25 with hair services only (no blow outs). To keep all of us safe, we ask you to comply with the following changes:

- Everyone is required to wear a mask at all times. If you are getting color, use a disposable mask or one with black straps.
- Enter the salon at the time of your appointment since there is no longer a waiting area.
- Try to maintain a 6-foot distance from other clients whenever possible.
- Do not bring anyone with you as we are monitoring the number of people in the salon at all times.
- Bring your own water bottle as no food or beverages will be available inside the salon.

All stylists will be checking their temperatures before each shift and have completed the Barbicide COVID-19 disinfecting certification course. We will be disinfecting stations, tools and main areas between clients. As of July 2020, Kerri and Maryjane are offering their services again, too.

For everyone's safety, **please reschedule your appointment** if you notice any symptoms and/or have recently tested positive or have been in close contact with anyone with recent symptoms or who tested positive. Please let us know if you have any questions. We're looking forward to seeing you!
